

We offer a range of insurance products and services to help you comply with your legal responsibilities under the Package Travel (PTRs) and ATOL regulations. Our services fall into three categories; Financial Failure Insurance (FFI), bonding and business insurance.

If you sell non-flight packages, FFI offers a cost-effective, flexible way of complying with your obligations under the PTRs.

We'll get everything set up so your customers are protected in the unlikely event that you cease trading.

Obtaining a bond to meet the requirements of ATOL, IATA or ABTA can seem stressful, but it needn't be.

We work with approved insurers to offer bonding at competitive rates. With our vast experience in the travel and insurance markets, we can make the process smooth and efficient. We'll do everything possible to get you the best terms.

We offer a range of insurance products to protect your business from key risks, which have been specifically designed for tour operators. This includes:

- Public Liability and Professional Indemnity policies** - insuring you against claims from your customer.
- Supplier Failure Insurance** - providing you with cover in the event that your suppliers cease trading.
